

## Zoning Information

The guidelines below are not meant to be conclusive, as they may change before this site is updated. The Building Inspector is the enforcer of Zoning By-Laws. He will make the final judgment as to whether or not an application for a building permit adheres to Zoning By-Laws.

Most frequently asked question:

**How much land and frontage do I need to build a house and how far from property lines does the house have to be?**

*The acreage, frontage and setback requirements are different for each town. A setback is the required measurement from the property line to the structure. Frontage is the linear foot measurement of the land abutting a street or highway. Click the town below to find its requirements:*
