

W MA HMCC DUTY OFFICERS

Full Coalition Meeting

October 21, 2016

Response Coordination

Baseline Capacity:

The core of effective HMCC response coordination is to ensure a rapid means of shifting from non-emergency to emergency states.

HMCC staff will rotate shifts as on-call duty officers to ensure two functions are continuously in place:

1.) Rapidly receive information and notify HMCC members of an emergency.

The duty officer will work with other HMCC staff and HMCC leadership to identify if a potential or actual situation warrants a notification to HMCC members.

2.) Determine if additional HMCC actions are necessary.

Beyond notifications of potential or actual situations, the duty officer will work with both HMCC staff and leadership to decide upon recommended courses of action by the HMCC.

Response Coordination

HMCC response coordination is based on assumptions that:

- Decisions made by HMCC leadership during a response are recommendations.
- Member organizations maintain their decision-making sovereignty

Sample activities of HMCC response coordination include, but are not limited to, the following:

Provide situational awareness between member organizations and jurisdictional authorities by offering notification that an event is happening, and procuring/offering incident-related information that is not otherwise readily available.

Facilitate the coordination of response actions amongst member organizations, such as convening leaders to strategize and recommend common messaging.

Disseminate resource needs and help match organizations that request mutual aid or other assistance with organizations that can provide that assistance.

Duty Officer Tasks and Actions

Situational Awareness:

“The ability to identify, process, and comprehend the critical information about an incident – knowing what is going on around you , [requiring] continuous monitoring of relevant sources of information.”

(National Response Framework)

- **Serve as the first point of contact** for HMCC members as an incident presents or evolves.
- **Log information** that provides situational awareness of an incident.
- **Gather HMCC leadership and other relevant subject matter experts** as a situation expands to identify HMCC coordination actions.
- **Collect and disseminate response actions** taken by HMCC members to ensure a common operating picture throughout the region.
- **Assist in resource requests** if necessary.
