Look Who’s WALKING!

Celebrate the launch of updated Walk Franklin County maps!

All through the fall, All of Franklin County!

#walkfranklincounty

FRCOG has revised and reissued our popular Walk Franklin County maps! Every Franklin County town has its own map that highlights scenic walking routes ranging from one to four miles with points of interest marked along the way.

How It Works:

1. Find digital versions of the maps online at www.frcog.org, and paper maps at your town hall or local library starting in September.

2. Pick up a map and get walking!

3. While you are out walking, take a picture of yourself (or have someone else take it!) and post it to the FRCOG Facebook Look Who’s Walking event page, or tweet us with the hashtag #walkfranklincounty, from September through October, and we will enter you for giveaways to help keep you active!

(If you’re more private, email us your pic at giannini@frcog.org - we will enter you for the drawings!)

However you do it: get walking, take a pic of it, and let us know!

You could win a FitBit or other prizes to help you set a brisk pace all fall long!
