

Emerging Infectious Disease Workshop

For: Boards of Health, Emergency Dispensing Site teams, EMDs, Public Health Nurses

A flu pandemic is a matter of time. Other emerging infectious diseases (EIDs), such as Ebola, MERS, and Zika virus, are occurring more frequently. Global travel, population growth, and urbanization increase the risks of an EID emergency everywhere – even Franklin County.

The 1 ½ hour workshop will include:

- New information on EID risks
- The *Disease Transmission Cycle* and how to break it
- Workshop discussion of emergency planning considerations...
 - Issuing official public messages
 - How to protect your responders
 - Mental and behavioral health
 - Surveilling cases in your town
 - Managing emergency vaccines

Monday, March 18th 5:00-6:30pm

**Olver Transit Center, William B. Allen Meeting Room,
12 Olive Street, Greenfield, MA 01301**

Pizza and salad provided!
Please RSVP to: registrations@frcog.org
