The initials **RS** and **PE** refer to **Registered Sanitarian** and **Professional Engineer**, licensed by the State of Massachusetts. Septic System plans must be signed and sealed by either an RS or a PE. Any RS or PE licensed in Mass can design septic systems. Residential homes have a design flow of 110 gallons per day per bedroom (4 bedroom = 440 gallons per day). An RS can design systems up to 2000 gallons per day. A PE can design any size system.
