What To Expect When You Sign Up

Power House Energy Consulting staff will work with you to determine which technologies are right for your home, and how you can maximize energy savings. Contact us to set up a site visit so we can learn more about your needs and interests. After the assessment, we'll provide the following:

- ✓ An evaluation for your home that includes installation costs, energy savings, maintenance costs, and your calculated payback period
- ✓ Information about available rebates and financial incentives for upgrades & installations

Number of Household Members	Maximum Annual Household Income
1	\$54,600
2	\$71,400
3	\$88,201
4	\$105,001
5	\$121,801
6	\$138,601

Determine Your Eligibility

If your household or your tenants fall within these income limits, you may be eligible for a variety of energy efficiency and clean energy incentives and rebates. Your household or tenants must fall in these income levels to participate in the consulting program.
