etc.**

Pre-Requisite
Trainings - TBD

MA PHIT Septic, Camps,
Pools Classroom-Based
Training

Inspections with training
hub field trainer (minimum
of inspections TBD)

Notes

- Per the [Workforce Standards](#), all inspectors and agents/directors/BOH members who conduct inspections are required to complete the MA Public Health Inspector Training (PHIT) programs.
- The PHIT classroom-based courses will be offered either in person or virtually. Several courses will be offered throughout the year.
- Prior to attending the classroom-based trainings, you will need to at least **start** the [pre-requisite courses](#).
- All pre-requisite courses will need to be **completed** prior to requesting the field training portion with your training hub field trainer.
- At this time, the minimum number of field trainings, the assessment tool, and minimum passing score have not yet been determined by DPH. You will be notified once field inspections are open for scheduling.
- Announcements regarding upcoming PHIT classroom trainings will be posted on the [Franklin-Hampshire Field Training Hub Webpage](#).
